## John Deere TK-Series Teeth

Hammer-free installation means less machine downtime and more profit.

- Engineered for maximum strength and impact absorption
- Hammerless design promotes workplace safety
- Multi-planed surfaces specifically engineered to withstand all loads and impacts
- Tapered pin allows easy removal
- Installs and removes quickly with an ordinary socket wrench
- Symmetrical design allows for teeth to be flipped when needed and pin access from either side
- Helical feature clears packed dirt and unifies the unlocking and removal motion

# PRICE MATCH GUARANTEE!

If you find a lower price anywhere else on a new identical part, show us the competitor's quote and we'll match the price. Or if it's within 30 days of your purchase, we'll refund your account the difference.

*Conditions apply – details in store.*

# PROACTIVE<sup>™</sup>

## MAINTENANCE

### Work With Me!

You've got better things to do than compiling service histories or managing maintenance schedules – you have a business to run! Now, Brandt ProActive Maintenance<sup>™</sup> has a new way to help you simplify your life while controlling service costs, and minimizing downtime and administration; a shared-service program called **Work With Me**.

**Work With Me** leaves the simpler 500hr services in your hands, while we take on the larger 1000hr intervals. We'll track, schedule and order parts for ALL services so you don't have to and we'll take care of all the reporting too. Why spend more on service infrastructure when Brandt can take care of your fleet for you?
