Dump Downtime.

Brandt Work Ready™ dump trailers are purpose-built to stand up against the toughest conditions, every day. Whether you're hauling equipment to the jobsite or aggregate when you're there, these trailers work as hard as you do and take all the punishment you can dish out.

① Built to Last

Brandt trailers are purpose-built to maximize your productivity from dusk till dawn, until the job gets done:

- Reliable design and long-lasting components reduce total cost of ownership.
- Reinforced floor with tire tracks to prevent warping over time.
- Unique design that lowers the deck height to generate lower loading angle.

② Easier to Operate

These trailers are designed for fast, effortless loading so you can start working sooner:

- Bolt-on key components are easily replaceable for fast maintenance, making this a fully serviceable design for maximum uptime.
- Two gate and ramp configurations available to give you the perfect setup for the task at hand.
- Power up, power down, gravity down hydraulic hoist cylinder delivers the muscle required to dump heavy loads with ease.

③ Safer

Safety is critical on the jobsite, so these models are designed with key features to maximize operator protection:

- Rugged slipper spring suspension system is optimized to safely distribute weight between axles when carrying heavy loads on uneven ground.
- Safety prop-rod secures the box in the raised position, maximizing operator safety while performing maintenance on the trailer.
- Forward self-adjusting brakes keep the brakes at their peak performance for longer while eliminating the need for manual adjustments.

Powerful Value. **Delivered.**
