## COVERAGE YOU CAN COUNT ON

### 2 YEAR WARRANTY

1 year standard comprehensive and 1 year extended warranty with 5 year structural at no additional cost. *Ask us for details.*

### FLEXIBLE FINANCING

Custom financing solutions available to best suit your business. *Ask us for details.*

## Worksite Tough. Operator Smart.

You asked, we delivered. The all-new Brandt Fixed Deck Tag Trailers are purpose built to tackle the challenges you face, every single day.

### ① Higher Productivity

Get on the road faster with the versatility and speed of Brandt Tag Trailers.

- Standard D-rings spaced every 48" and optional additional D-rings spaced every 24" provide more load securement points.
- Optimized design with cambered beams delivers a low tare weight for heavier loads.
- Extended enclosed toolbox and chain basked come standard in the A-frame, offering convenient access and secure storage for essential supplies.

### ② Increased Uptime

High-quality construction and rapid connection points ensure maximum uptime.

- Customize your trailer to suit your needs with weld-on features suitable for unique applications.
- Air controls are protected in the frame, ensuring longer component life and easy operator access.
- Wheel covers are built with ¼" high-strength steel for superior resistance to sagging and consistent tire clearance over years of demanding work.

### ③ Lower Cost of Operation

Long-lasting components and reduced maintenance add up to serious savings.

- Premium powder coat finish ensures long-term durability, and available in customizable colours to suit your preferred style.
- Simplified electrical system features updated OEM harnessing and plug-and-play connections, eliminating the need for a junction box.
- High-quality components and strategically engineered components reduce maintenance and repair costs.

Powerful Value. **Delivered.**

# FIXED DECK TAG TRAILERS **FEATURES**

## Engineered Beams

Cambered engineered beams enhance aesthetics and performance by reducing sag under heavy loads and providing tare weight savings.

## Air-operated Ramps With Knife Edge

These 7' 6" x 38" air ramps include a knife-edge transition and your choice of premium apitong or fir wood decking. Bolt-on legs ensure stability and long-term performance.

## Practical Design

Frequently used touchpoints including the steps, ramps, landing gear, toolbox, and tie-downs are thoughtfully designed to provide a practical and ergonomic operator experience.

## Spring-assisted, Self-cleaning Ramps

These 6' x 24" ramps feature a spring-assisted, double-hinge mechanism that supports their full weight during both deployment and storage, along with a self-cleaning design that helps prevent dirt buildup.

## Double Break Beavertail

The 6' double break beavertail reduces the loading angle, providing a smoother and more controlled experience when loading tracked equipment.

## Paver Style Air Bifold Ramps

Designed to extend before ground contact, these 11' x 45" heavy-duty air bifold ramps deliver smooth operation and superior safety. They're finished with rugged apitong decking and bolt-on legs for maximum reliability.
