Custom financing solutions available to best suit your business. *Ask us for details.*

Solid Operator.

The all-new P350 picker float trailer from Brandt has the grit to handle your toughest off-road tasks. Its heavy-duty frame, suspension, and axles deliver maximum durability, making this beast your ideal solution for pipeline and construction jobsites.

① Easier to Own

This trailer is backed by the best support in the business to make ownership stress-free:

- Flexible purchasing options include rentals, rental purchasing, leasing, and conventional financing.
- Brandt's advanced paint protection looks better, lasts longer, and inhibits corrosion for longer trailer life and increased resale value.
- Reliable design and long-lasting components reduce total cost of ownership.

② Easier to Operate

Productivity is essential to your success, so we optimized the P350 for efficient operation:

- Large oval-shaped hole in the front panel provides easy access to air and electrical connections, allowing you to hook up the trailer faster.
- Sliding rear-suspension allows flexible positioning of the rear axle groups for optimized weight distribution and maneuverability in tight spaces.
- Bolt-on landing gear simplifies maintenance to minimize downtime compared with welded designs.

③ Safer

Safety is critical on the jobsite, so the P350 is designed with key features to maximize operator protection:

- Remotely-mounted air-tank drain valves make maintenance safer and faster.
- Optional lighting packages maximize jobsite safety in low-visibility conditions.
- Premium fir decking ensures that the operator has safe, stable footing when working on the trailer.

Powerful Value. **Delivered.**

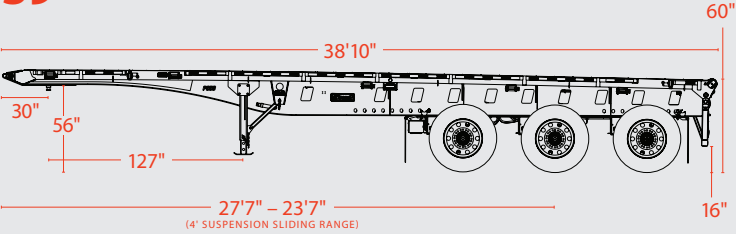

HEAVY HAUL TRAILER
