PROACTIVE[™] MAINTENANCE

Work With Me!

You've got better things to do than compiling service histories or managing maintenance schedules – you have a business to run! Now, Brandt ProActive Maintenance[™] has a new way to help you simplify your life while controlling service costs, and minimizing downtime and administration; a shared-service program called **Work With Me**.

Work With Me leaves the simpler 500hr services in your hands, while we take on the larger 1000hr intervals. We'll track, schedule and order parts for ALL services so you don't have to and we'll take care of all the reporting too. Why spend more on service infrastructure when Brandt can take care of your fleet for you?

**SAVE 20%
UP TO**

On Preventative Maintenance Costs

Contact your local Brandt Sales Representative or the ProActive[™] Team for more information.

John Deere Equipment ReLife

Extend the value of your equipment.

You invested in your Deere machine for quality, durability, and reliability, but we're giving you another reason: extendability. We're committed to helping you find even more value while managing the cost of your fleet. Start at the heart of your machine with replacement of your major powertrain components and your choice of extended warranty via Powertrain Plus. Then take your like-new machine back to work and benefit from extended hours, reduced costs, and continued dealer support.

The John Deere Powertrain ReLife Plus program extends the life of your machine with:

- ✓ A thorough machine inspection by a certified technician
- ✓ A complete set of John Deere Reman powertrain components
- ✓ A John Deere Powertrain ReLife Plus Warranty

POSITIONING TECHNOLOGY

Rule the Jobsite.

TOPCON X-52 & 53i

Look to Brandt for a streamlined 2D/3D excavation system that allows you to work from an existing elevation reference or laser. Topcon has combined their rugged LS-B10W laser receiver with state-of-the-art sensors to ensure that you stay on-grade without ever having to re-string. The GX-55 control box actively guides your bucket, maximizing your productivity.

When GNSS location and precision are required, the system is easily upgraded to 3D, allowing you to easily excavate complex slopes or “in the blind.” Every bucket movement is tracked in real-time and the system quickly directs you to centerlines and guides your bucket to grade, ensuring that your schedule stays on track.

And you can get it all from Brandt, because when all is said and done, nobody works harder than Brandt to keep you productive and profitable. **That's Powerful Value. Delivered.**

Contact your local Brandt Representative for more details.

Your #1 choice in North America for refurbished, used & aftermarket industrial equipment parts.
